### Mil:

is the unit of measure used to describe the thickness of plastic. For example, a 1 mil bag is thinner than a 3 mil bag. The most common bag is a 1 mil, slightly thicker than a Dry Cleaner's bag, which is typically a .5 mil or less. The most popular home furnishings bag is a 3 mil.

### Gauge (GA):

is the measurement of thickness of the bag or film. In the United States, it is normally expressed in mils (other countries typically use microns).
